ABHW INITIATIVE: STAMP OUT STIGMA

Together, we can reduce the stigma that hinders people from getting treatment.

In addition to its main activities, ABHW seeks out opportunities to advance the profile and positive positioning of the industry. Case in point: Stamp Out Stigma, our campaign to reduce the stigma surrounding mental illness and substance use disorders. Our goals are to help individuals feel more comfortable seeking out the treatment they need—and to change the national conversation around mental health and substance use disorders.
